

GEODESIGN INC

AN NV5 COMPANY

COVID-19 (NOVEL CORONAVIRUS)

FACILITY HEALTH & SAFETY

COVID-19 (Novel Coronavirus) is impacting business and government operations across the US and abroad, and entities in both the public and the private sector are seeking solutions to mitigate the risk of exposure to this pathogen for their employees and visitors. Development and implementation of appropriate health and safety plans can help to defend against the transmission of not just COVID-19, but also a host of other viral and bacterial pathogens. NV5's team of industrial hygienists have decades of experience dealing with pathogenic threats to assist your business' goal of minimizing the risk of exposure and interruption to business operations.

NV5's industrial hygiene experts can help your business and community with:

- Site-Specific Deep Cleaning Protocols
- Updated Health and Safety Plans
- Emergency Response Plans

All plans and protocols are developed in accordance with protocols from the Centers for Disease Control and Prevention (CDC), World Health Organization (WHO), Occupational Safety and Health Administration (OSHA), Environmental Protection Agency (EPA), and American Industrial Hygiene Association (AIHA).

Services

FACILITY HEALTH & SAFETY PLANS

Analyze your facility's characteristics, use, and traffic to identify potential hazards and develop policies and procedures to minimize the risk of pathogen transmission.

EMERGENCY RESPONSE PLANS

Develop a customized plan to provide early identification of an emergency and a timely, effective response to minimize risks and operational interruption.

DEEP CLEANING PROTOCOLS

Implement facility cleaning protocols to eliminate pathogens through intensive disinfectant procedures, minimizing risk of exposure and transmission.

TRAINING

Promote a safety culture and a safe work environment through communication of health and safety plans and protocols to employees and other stakeholders.
